

The “Teachers On Call” service is a critical one for Fort McMurray Public Schools and its students.

Handling another teacher’s class is something that is very important to the continuous learning process for the students. Ensuring that student learning continues and that it is not interrupted by unexpected circumstances may sometimes be challenging work. On behalf of the Board of Trustees and its senior leadership team, I would like to thank all of you for the work that you do to maintain a safe, caring and invigorating environment.

Being a teacher on call takes a special skill set. Being flexible, creative, and organized are just three traits of many that are critical to the success of the students. We are very proud of all of our “Teachers On Call” and thank you for everything that you do for our students.

Your commitment makes a difference “in doing what’s best for kids”.

Have a great school year!

A handwritten signature in black ink that reads "Doug Nicholls". The signature is written in a cursive, flowing style.

Doug Nicholls
