REGGIO INSPIRED

Early Childhood Development Program (ECDP) and Kindergarten Program

The Fort McMurray Public School Division offers alternative Early Learning Programs for both Early Childhood Development Program (ECDP) and Kindergarten.

What is the Reggio Inspired Program?

The Reggio Inspired Program is designed to provide a playful inquiry-based program for young children to prepare them for future learning in school.

Specially trained professional staff will provide instruction, strategies and play-based activities to enhance cognitive, social, physical, communication and behaviour development.

The Reggio Inspired Program focuses on developing language through stories and playful inquiry. Each program is under the supervision of the school principal, a certified teacher and the early learning consultants.

Early Learning programming focuses on increasing readiness for future learning through engaged thinking, ethical citizenship, entrepreneurial spirit, problem-solving, creativity, and innovation.

These programs are a terrific fit for students who have an interest in the arts and sciences.

Who can attend the Reggio Inspired

Program? ECDP - For children who are 3 years of age on or before December 31st of the previous year.
Kindergarten - For children who are 4 years of age on or before December 31st of the previous year.
(See fmpsdschools.ca for more information).

What will I need to attend?

Children will need a small backpack, indoor shoes and healthy snacks.

When is the Reggio Inspired Program?

Both ECDP and Kindergarten children attend five days a week for 3 hours/day in accordance with the Division calendar. We believe that parental involvement is an essential element for student success. Therefore, Family Orientated Programming sessions will be offered throughout the year by staff to compliment the program.
